FOR IMMEDIATE RELEASE

Dennis Bradway joins RFCI as Technical Consultant

LaGRANGE Ga. (January 8, 2024) Dennis H. Bradway has joined the Resilient Floor Covering Institute (RFCI) as a Technical Consultant, along with current Technical Consultant Jane Rohde, to serve the interests of the Resilient flooring industry. Bradway has been an active contributor on RFCI's Technical Advisory Committee for many years.

Prior to accepting this new role, Dennis was the Corporate Product and Standards Manager at Mannington Mills, where he retired after 40 years of service. He has also long worked to set industry standards through his leadership with ASTM and received the 25-Year Service Award in 2008, as well as the prestigious ASTM International Award of Merit in 2012. In addition, Dennis has been active in several industry organizations and in the International Organization for Standardization's Technical Committee 219 on Flooring.

"Dennis' impact on our industry and our association has been so impressive for many years," said Bill Blackstock, President and CEO of RFCI. "We are delighted that our future will benefit from his wisdom and leadership as well. The combined skillsets of Dennis and Jane will pack quite a punch as we support the continual march of innovation in the Resilient sector."

Jane Rohde welcomes Dennis Bradway to RFCI

About RFCI

The Resilient Floor Covering Institute (RFCI), based in LaGrange, GA, is the flooring industry's association that provides support for a network of global resilient flooring manufacturers and those in the supply chain. The mission of RFCI is to enhance the long-term growth and well-being of the North American resilient floor covering industry. RFCI strategic goals include managing issues that affect manufacturing, products, and the people who use them, and which typically emanate from federal and state government agencies as well as non-governmental agencies and activist groups. Other key goals include promoting the resilient flooring category, developing guidelines and certification programs to ensure the quality and sustainability of resilient flooring products, their installation, and maintenance, developing and managing technical product performance standards, and market education. https://rfci.com
